

METRO DISTRICTS

4/13/2021

Hello,

The Districts are sending out this Notice to address some questions in reference to the pool access in 2021.

The Districts do not have a final answer on how the access of the pool will be for the 2021 pool season. At this time, everything depends on Larimer County restrictions.

With the vaccines and all the news stories, it sounds very promising that we might have a better year.

By mid-May the Districts should have the information that is needed on any restrictions that will be in place for operating the pool and gatherings.

Once the Districts have received all the information on restrictions that will be in place and board approval, we will send out an additional update on what guidelines will be in place for the 2021 pool season.

Thank you for your understanding.

The Districts
